

AMENDMENTS TO THE SPECIFICATION:

Amend paragraph 0028 of the published specification as follows:

Spinner element 30 rotates freely on pin 32, in a plane substantially parallel and proximate to midsole lobe 26. Spinner element 30 is loosely mounted on pin 32, for unconstrained rotation about the pin. Spinner element 30 may be made to rotate by natural movement of the shoe during walking or running or by a torque briefly or temporarily applied by a finger or other extraneous object.
